WELCOME

What Ikimina does for your group

Ikimina keeps your savings group's books clear and shared: contributions, attendance, loans, rotation, income and expenses, reports and approvals. Everyone signs in on their own phone with a phone number and a PIN, and sees what their role allows.

Role	What they do
President	Oversees the group. Approves new members, loans, rule changes and payouts, and gives roles to other members.
Vice President	Approves loans, new members and larger expenses, and can replace the President or Accountant with the President.
Secretary	Records who attended each meeting, schedules meetings, posts announcements and submits new members for approval.
Accountant	The only role that records savings. Also records loan repayments, expenses and income, and pays out loans.
Auditor	Reads reports and the audit log to check the books. Cannot change anything.
Member	Sees their own savings, loans, attendance and contribution history, and can ask for a loan.

- Only the Accountant records savings, so one person is accountable for the money.
- Nothing is ever erased: a mistake is corrected by a reversal that another officer approves.
- Each group sets its own rules: amounts, interest, fines and who approves what.
- Available in Kinyarwanda, English and French, on the web, on Windows and on Android.

GETTING STARTED

Sign in for the first time

You do not create your own account. An officer adds you to the group, another officer approves it, and you receive a temporary PIN in person.

1

Get added

The President or Secretary adds your name and phone number. Another officer approves.

2

Receive a PIN

You are given a temporary PIN in person.

3

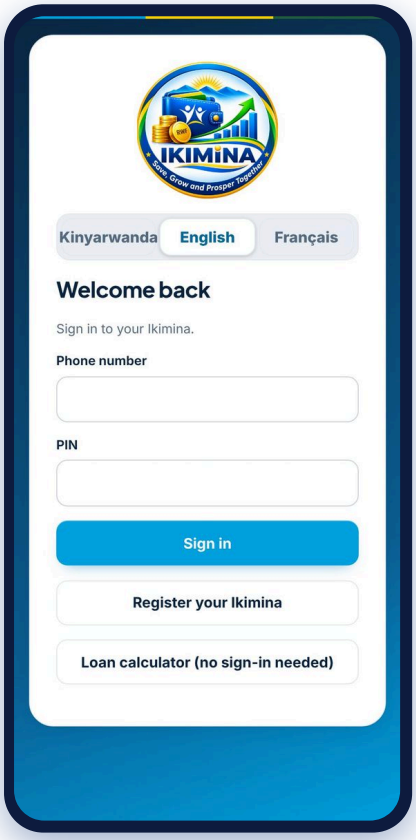

Sign in

Enter your phone number and the temporary PIN.

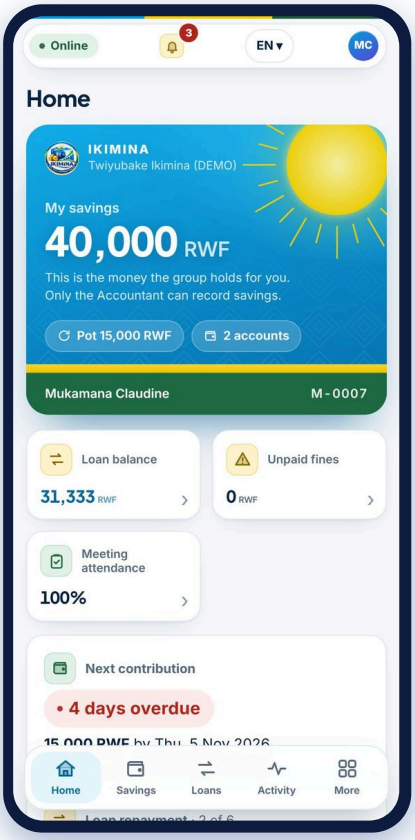

4

Choose your PIN

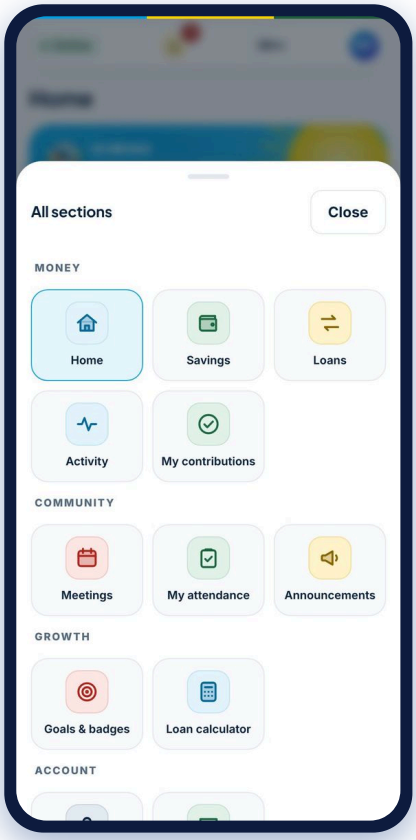

You must choose your own PIN before you can continue.

Sign in. Sign in with your phone number and PIN.

Home. Your home screen after signing in.

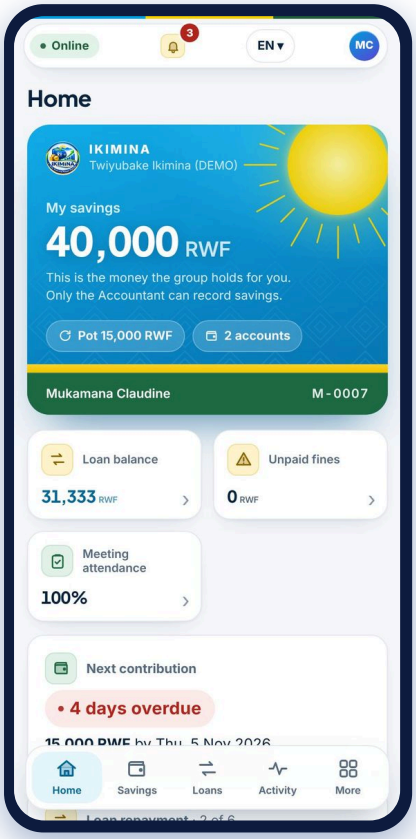

All sections. The menu groups every section by what it is for.

- Change the language at any time with the language chip at the top (Kinyarwanda, English or Français).
- After several wrong PINs the account locks for a while. If you forget your PIN, ask an officer to reset it; you will get a new temporary PIN.
- On Android, download the app from the link on edusmartconsult.rw, open the file, and allow installs from your browser when your phone asks.

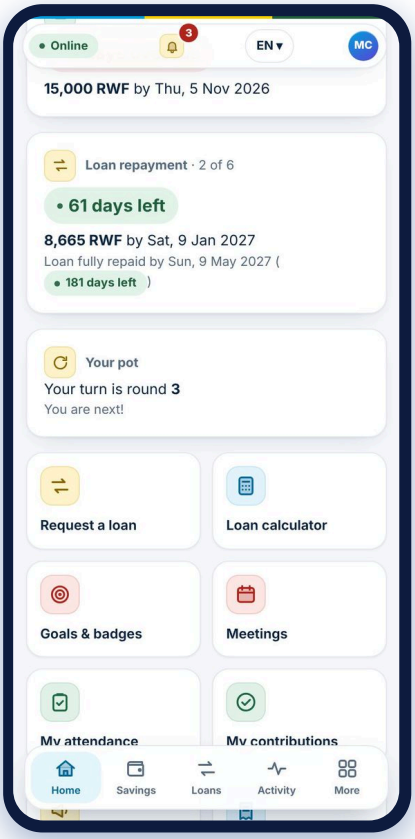

FOR MEMBERS

Your home screen

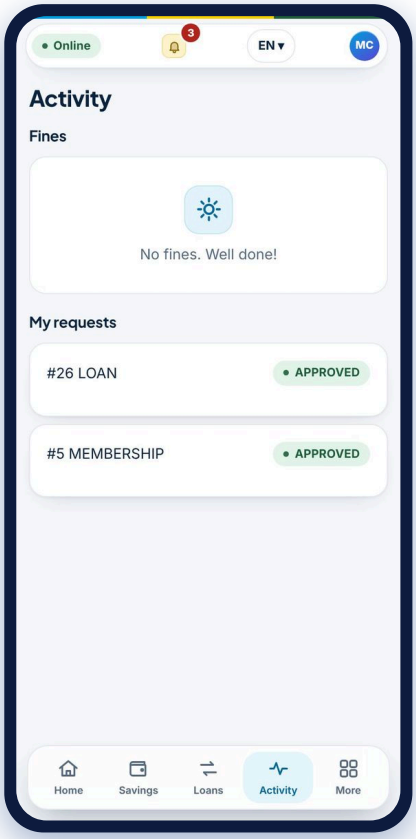

Home shows your savings, your loan balance, unpaid fines and your meeting attendance. Every figure is a button: tap it to open the page behind it.

Home. The savings card in the colours of the Rwandan flag shows what the group holds for you.

Next contribution. When your next contribution is due, and whether it is late.

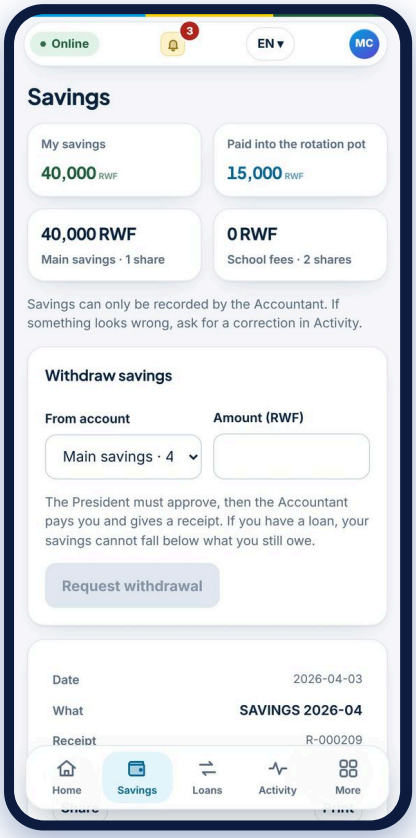

Activity. Fines you owe and requests you have made.

- Tap the savings card to open your savings and the history of each payment.
- Quick tiles lead to the loan calculator, goals, meetings, attendance and your contributions.
- The bottom menu hides itself when you are not touching the screen, to give you the whole screen. Touch the screen to bring it back. You can turn this off in Settings.
- Use More for every other section.

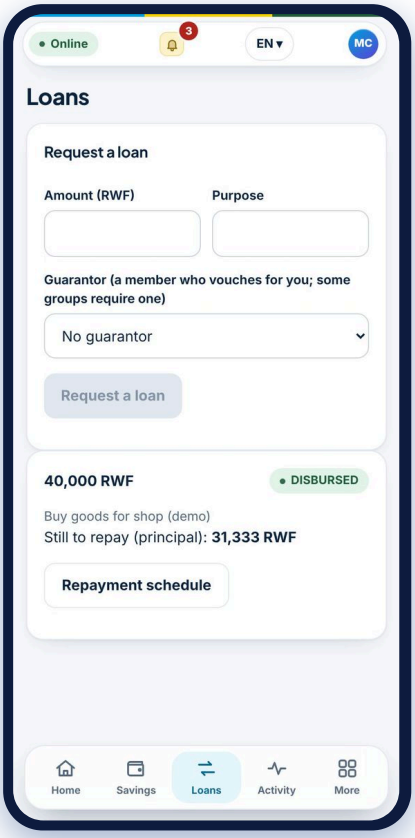

FOR MEMBERS

Savings and loans

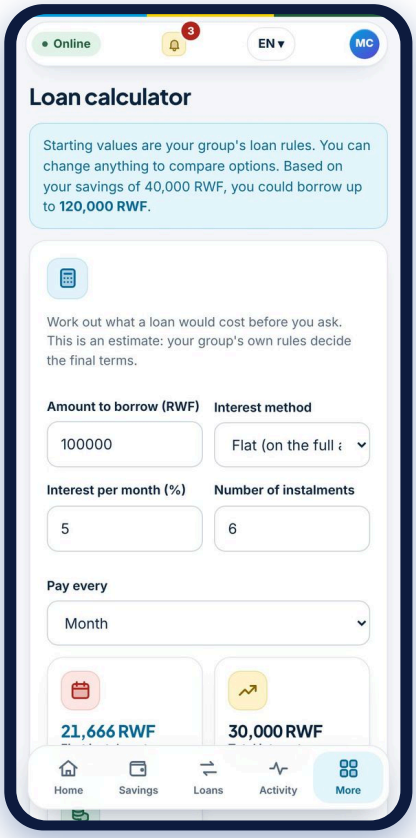

See every payment recorded for you, and ask for a loan when you need one.

Savings. Your balance and every payment, with its receipt number.

Loans. Your loans, what is left to repay and the next instalment.

Loan calculator. Try an amount and period before you ask.

1 Calculate

Use the loan calculator to see the instalments.

2 Ask

Open Loans and send your request with a reason.

3 Wait

Officers approve it. Some groups also need a guarantor who agrees first.

4 Repay

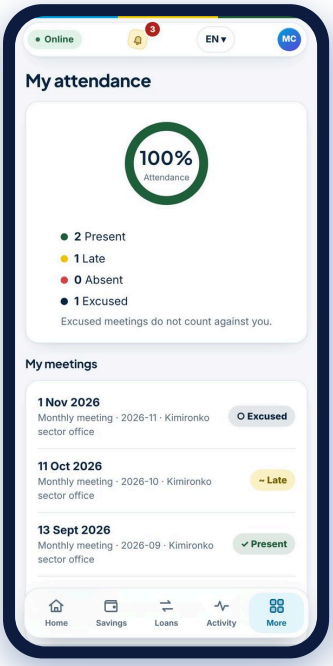

The Accountant records each repayment and you see the balance fall.

> Only the Accountant records your savings, so you can always check what was recorded against your own receipt.

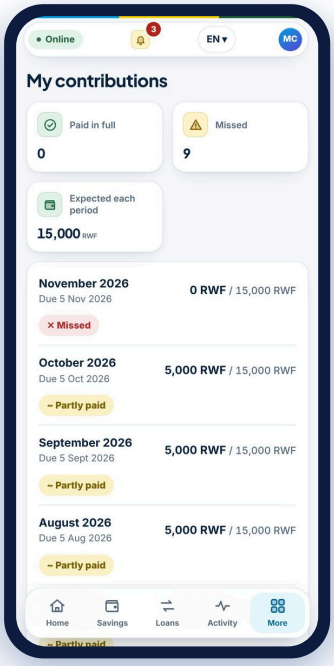

FOR MEMBERS

Attendance and contribution history

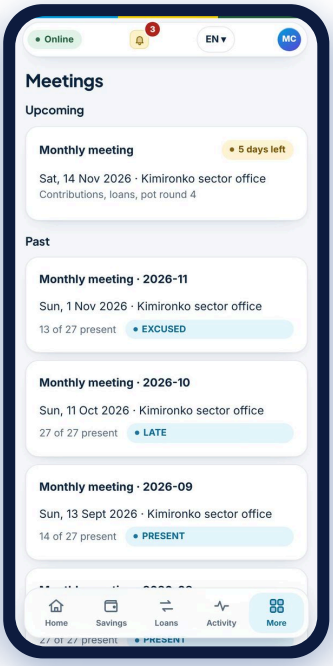

See at a glance how often you come to meetings and whether you paid each month, exactly as the Secretary and Accountant recorded it.

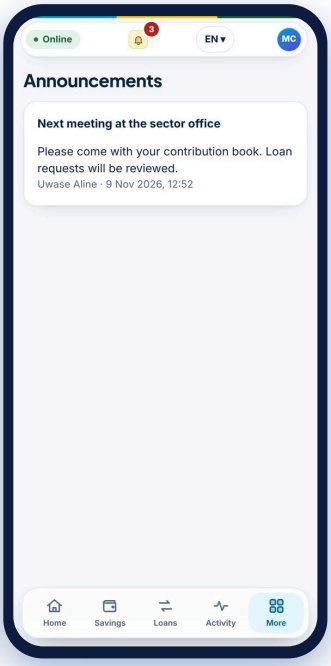

My attendance. Your attendance rate and every meeting with your status.

My contributions. Each month: paid, partly paid or missed.

Meetings. Upcoming and past meetings, with minutes.

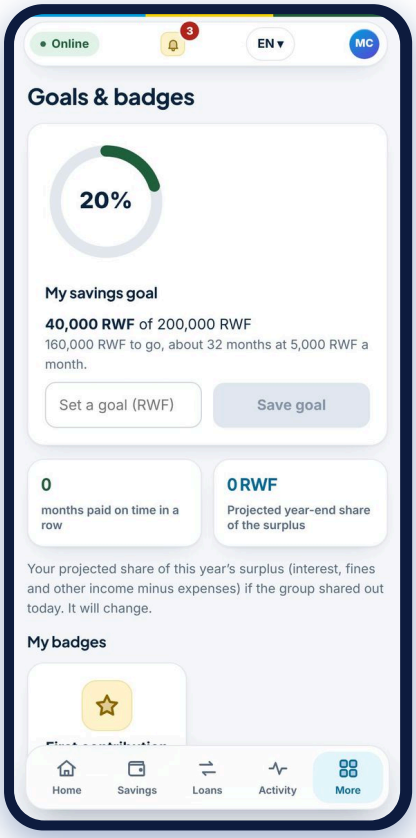

Announcements. Notices from the group's officers.

- Present and late count towards your attendance rate. Absent counts against it. Excused meetings do not count against you.
- A month shows as partly paid when you paid less than what you owe for your shares.
- If something looks wrong, tell the Secretary (attendance) or the Accountant (payments) so it can be corrected.

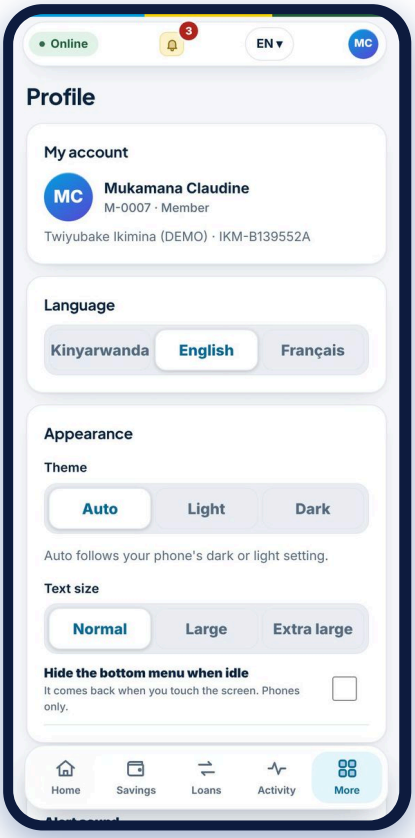

FOR MEMBERS

Goals, profile and help

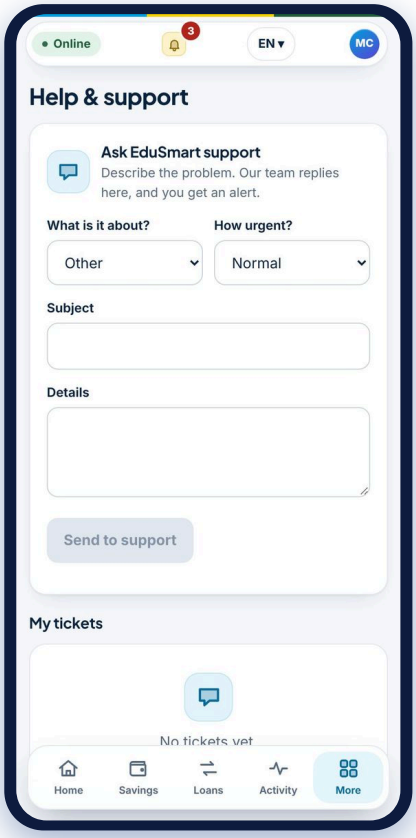

Set a savings goal, see your badges, manage your account and ask for help.

Goals and badges. Set a savings goal and earn badges for steady saving.

Profile. Your details, settings, language and PIN.

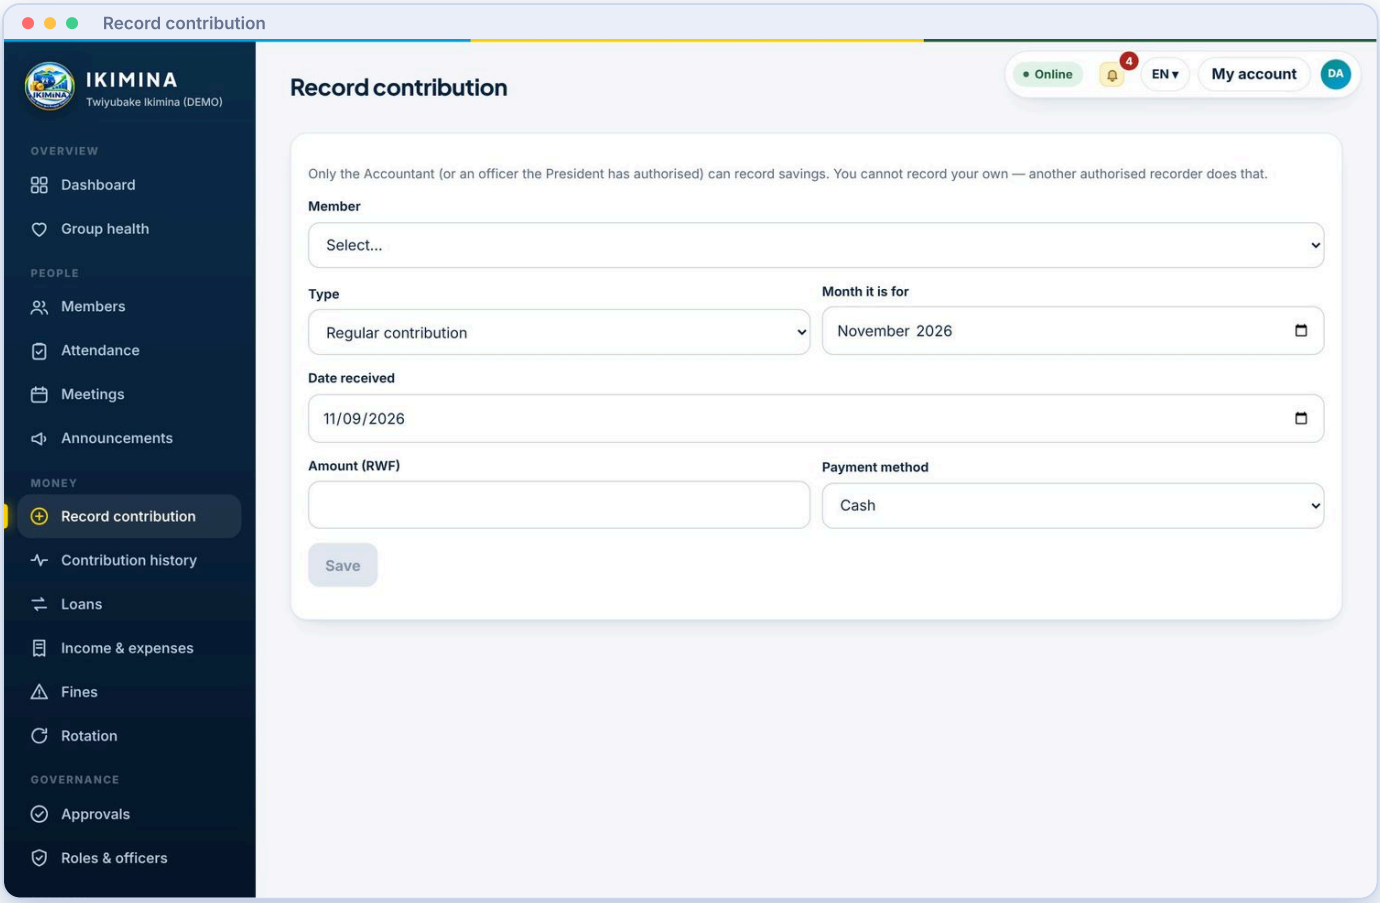

Help and support. Ask EduSmart support a question and read the answer here.

- Change your PIN in your profile. Choose one that is not obvious, and never share it.
- Settings let you choose the language, dark mode and whether the bottom menu hides itself.
- Sign out from the account menu at the top, especially on a shared phone.

FOR THE ACCOUNTANT

Recording contributions

Recording savings is the Accountant's job alone. Pick the month and the date from a calendar so nothing is typed by hand.

Record contribution. The form for recording a payment.

1

Choose the member

Pick who paid. You cannot record your own payment: another authorised recorder does that.

2

Month and date

Pick the month it is for and the date you received it. Future dates are blocked.

3

Amount and method

Enter the amount and choose cash, mobile money or bank.

4

Save and confirm

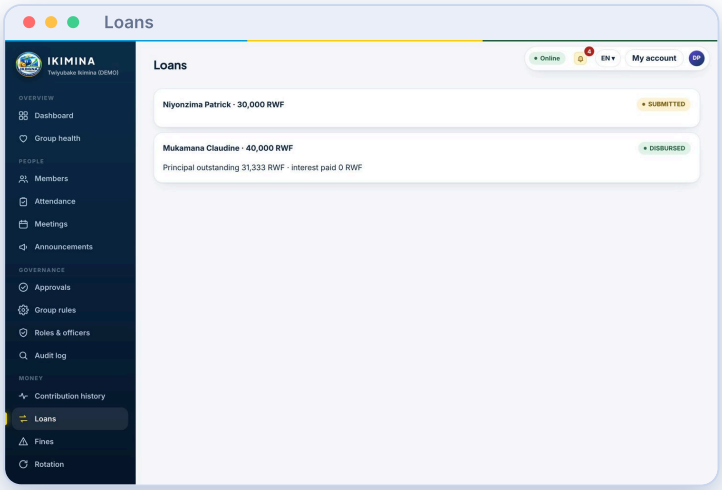

Check the summary, confirm, and the receipt is issued.

- For a rotation pot payment choose Rotation pot only and type the round, for example R3.
- Without internet the payment is kept on the phone and uploads by itself when the connection returns, without being counted twice.
- A mistake is corrected with a reversal that another officer approves. The original line stays visible.

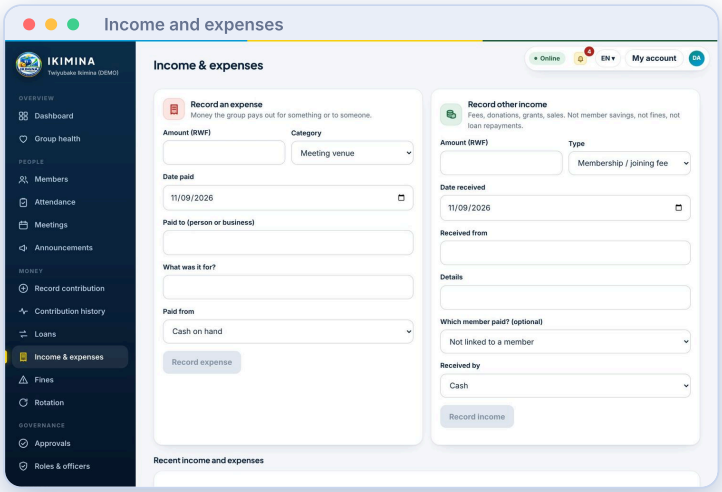

FOR THE ACCOUNTANT

Loans, income and expenses

Pay out approved loans, record repayments, and keep the cashbook equal to the cash.

Loans. Loans with their status and repayment.

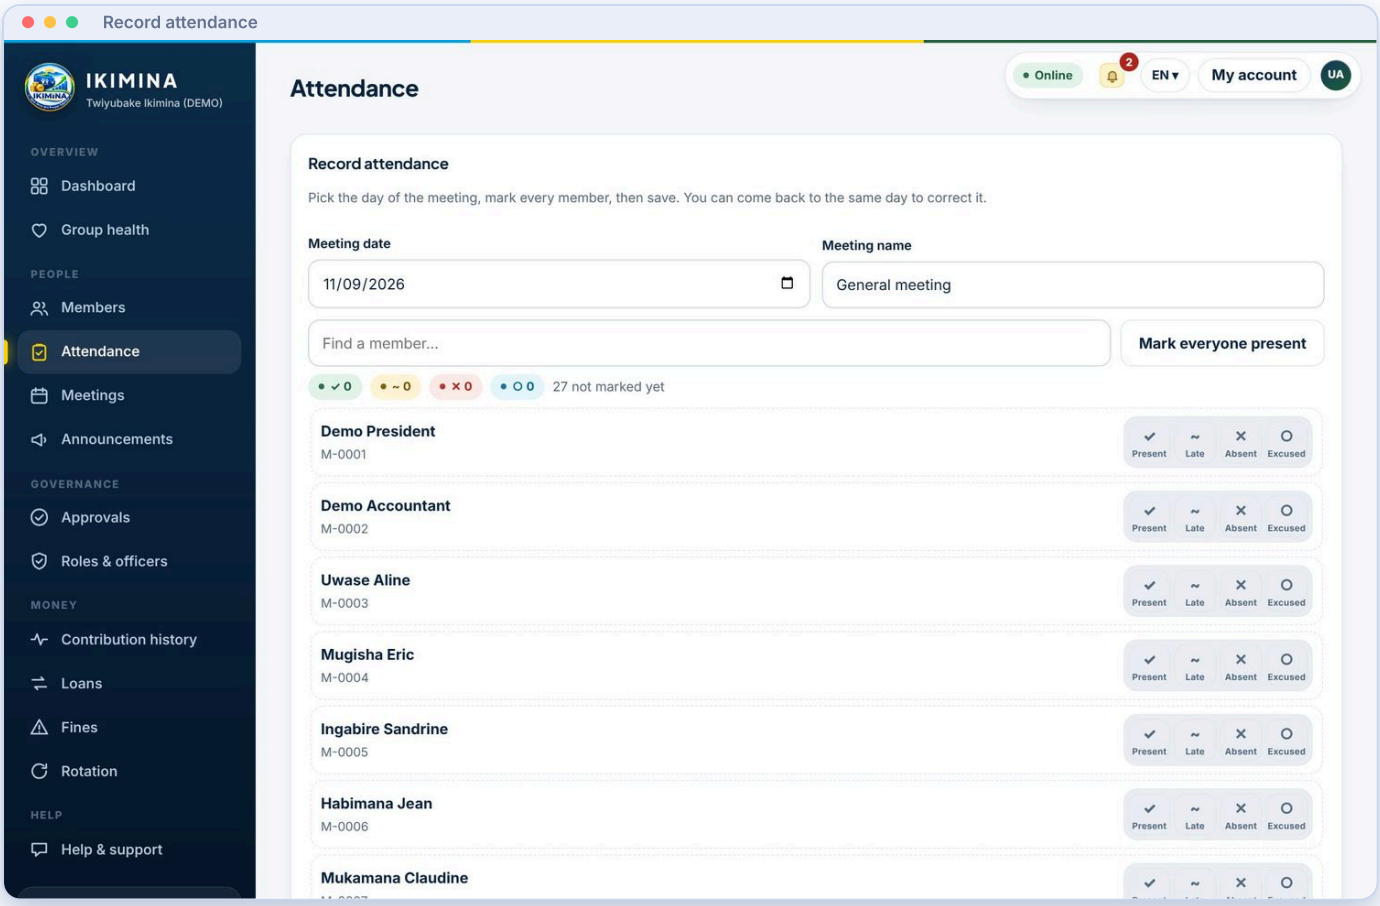

Income and expenses. Record money going out and other income.

- A loan needs approval from the President and the Accountant before it is paid out. The borrower can never approve their own loan.
- Record each repayment with the date from the calendar. Principal and interest are split automatically.
- An expense above the group's limit waits for the President or Vice President to approve before it is paid.
- Income that is not member savings (fees, donations, grants, sales) goes under Record other income.

FOR THE SECRETARY

Taking attendance

Record who came to each meeting. Members then see their own attendance in their account.

Record attendance. Mark each member, then save.

1 Pick the meeting date

Choose the day from the calendar. If a meeting already exists that day, its attendance opens.

2 Mark each member

Present, Late, Absent or Excused. Use Mark everyone present to start fast.

3 Save

Save is available once everyone is marked.

4 Fines (optional)

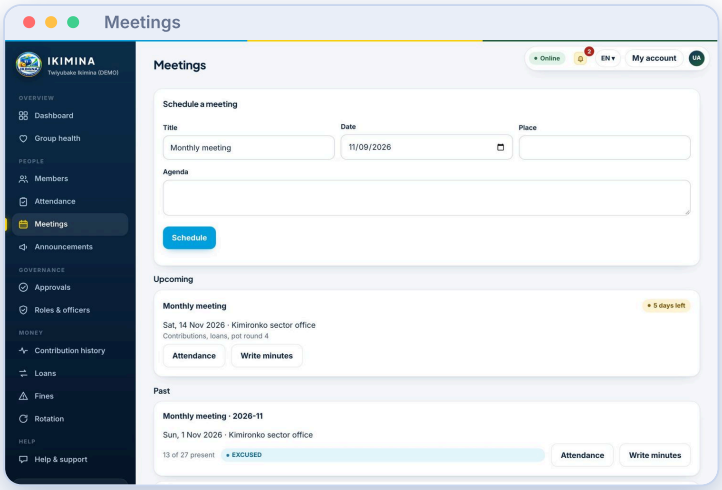

Tick the box to apply the group's fines for late and absent members.

- Attendance can be recorded from the day of the meeting, not before.
- You can reopen the same day later and correct a mark.
- Excused members are not counted against the attendance rate.

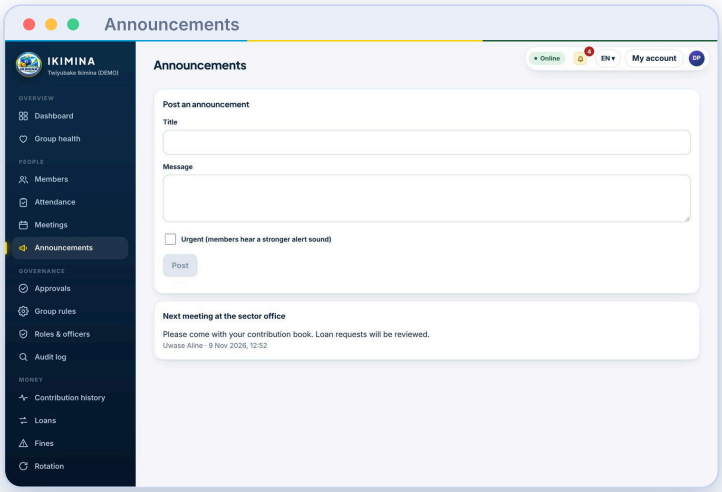

FOR THE SECRETARY

Meetings and announcements

Plan meetings, keep the minutes and tell the group what is happening.

Meetings. Schedule meetings, save minutes and see attendance.

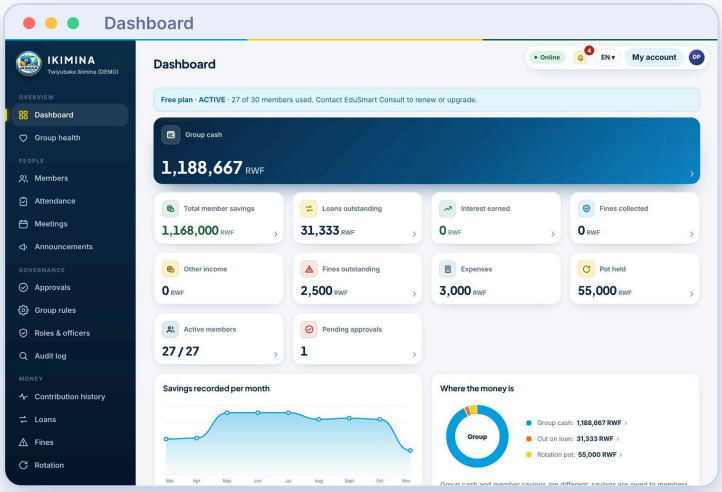

Announcements. Notices and urgent messages to the whole group.

- Members are alerted two days before a meeting.
- Save the minutes after the meeting so absent members can read them.
- Mark an announcement as urgent when everyone must see it.

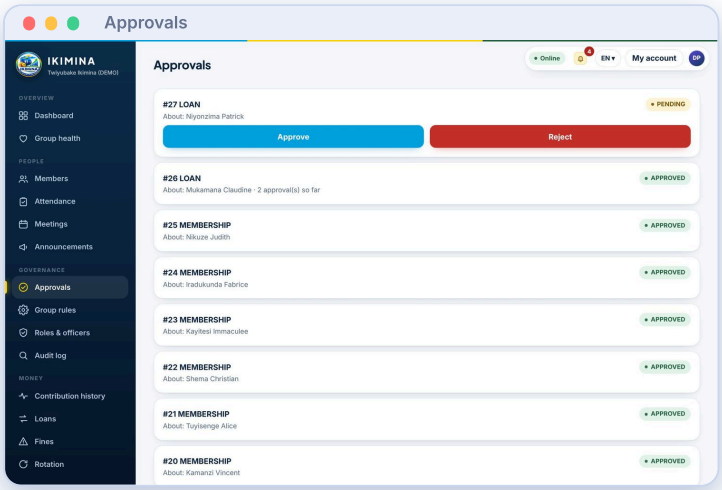

FOR THE PRESIDENT

Dashboard and approvals

See the group's position at a glance and decide the requests waiting for you. Every figure on the dashboard opens its page.

Dashboard. Group cash, member savings, loans, interest, fines and the monthly trend.

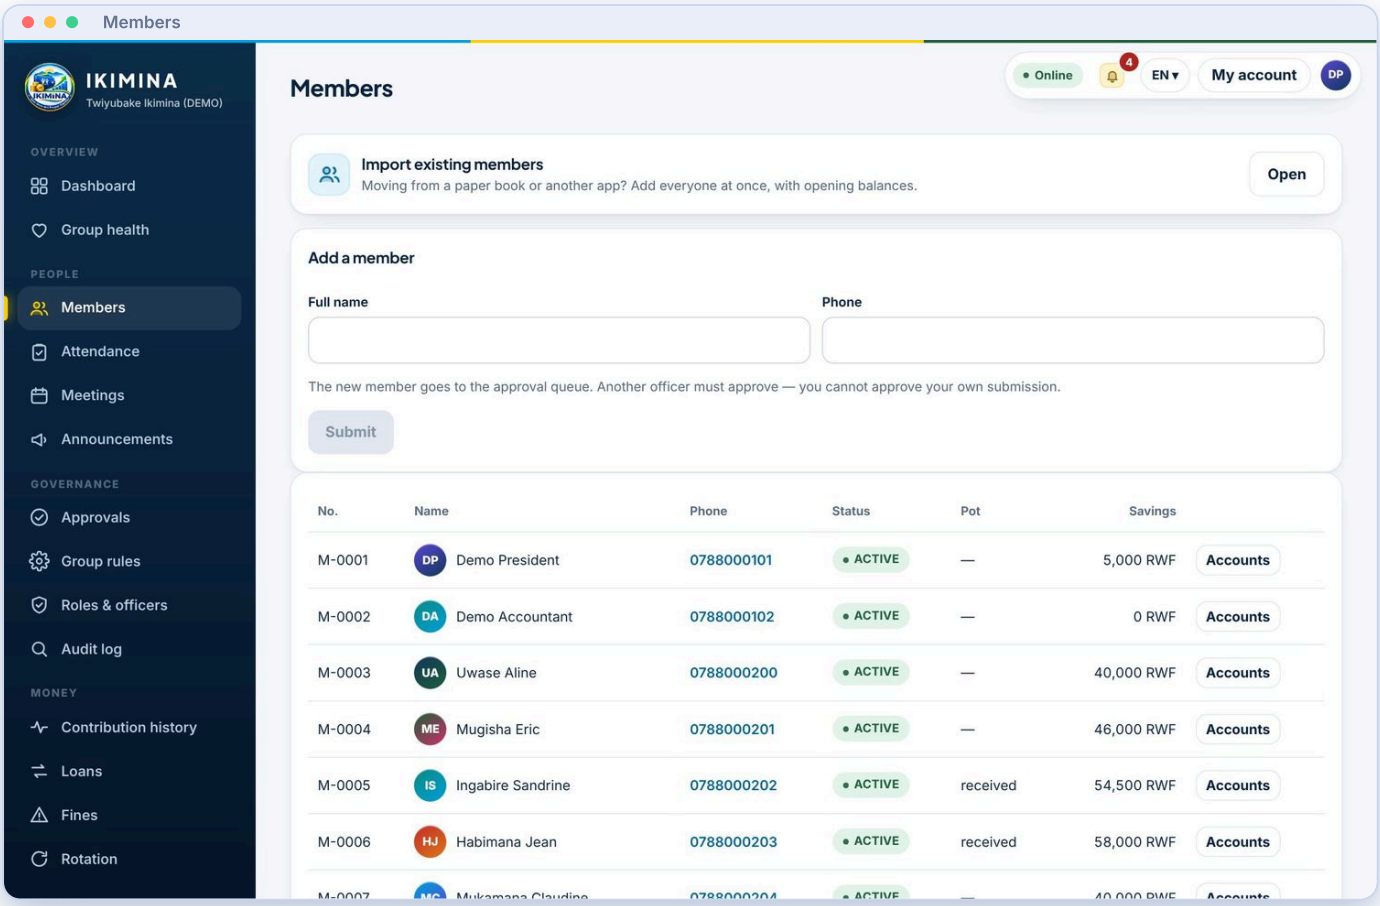

Approvals. Everything waiting for a decision.

- Approvals cover new members, loans, large expenses, fine waivers, corrections, payouts, rule changes and role changes.
- You can never approve a request you made yourself, or one about you.
- Open Approvals regularly: a loan or member waits until the right officers decide.

PEOPLE

Members

The register of everyone in the group, with savings, status and the actions officers need.

Members. Every member with phone, status, pot and savings.

1 Add

Enter the name and phone number and submit.

2 Approve

Another officer approves. The member gets a temporary PIN, given in person.

3 Accounts

A member can hold more than one savings account, each with its own number of shares.

4 Reset a PIN

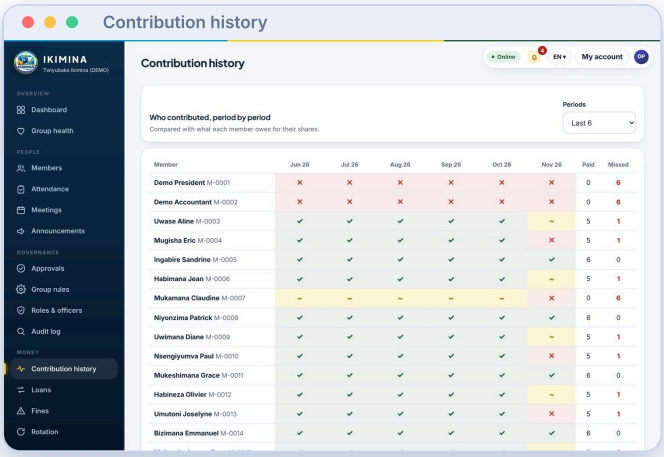

If a PIN is forgotten, reset it. The old PIN stops working and a new temporary one is shown once.

A group on the free plan has a member limit. When it is reached, ask EduSmart Consult to upgrade the plan.

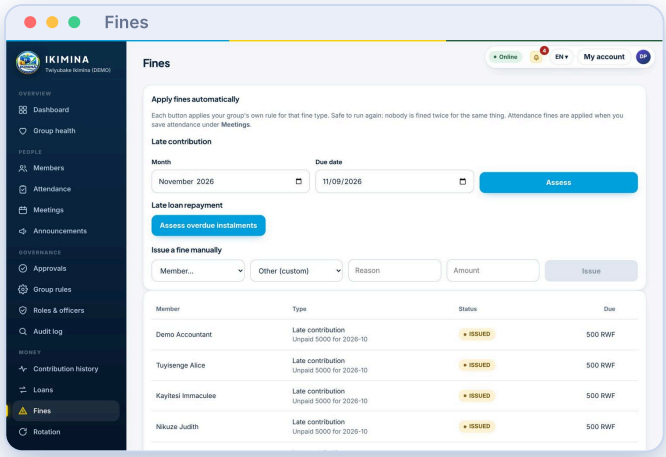

MONEY

Contribution history, fines and rotation

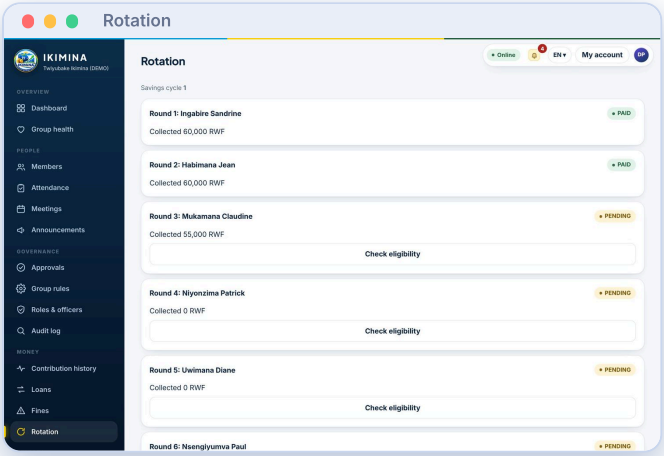

See who paid in which month, handle fines, and run the rotating pot.

Contribution history. Members by months: paid, part-paid or missed.

Fines. Apply fines by the group's own rules.

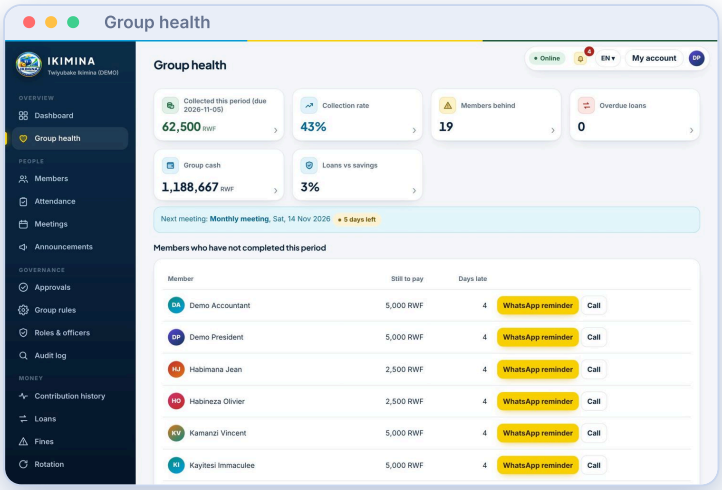

Rotation. Whose turn it is and the payout history.

- Contribution history compares what each member paid with what they owe for their shares, and totals each month.
- Fines follow the group's rules and are safe to run again: nobody is fined twice for the same thing.
- In a rotation the pot is paid out round by round, and every payout is approved before it is paid.

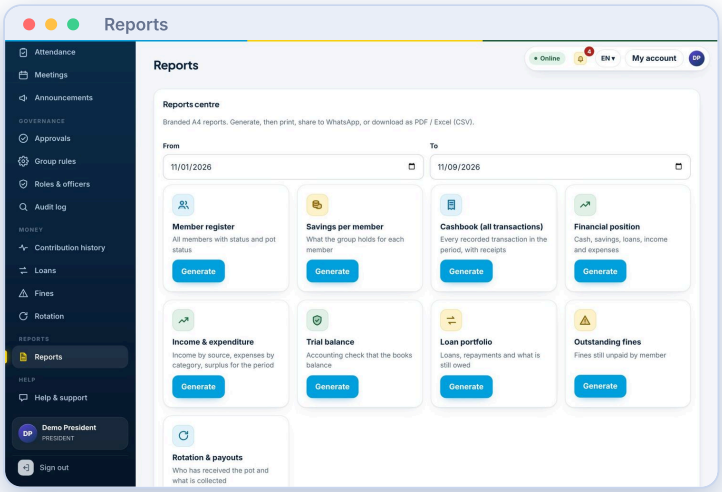

INSIGHT

Group health and reports

Know who is behind and keep proof of the group's money.

Group health. Collection rate, members behind and overdue loans.

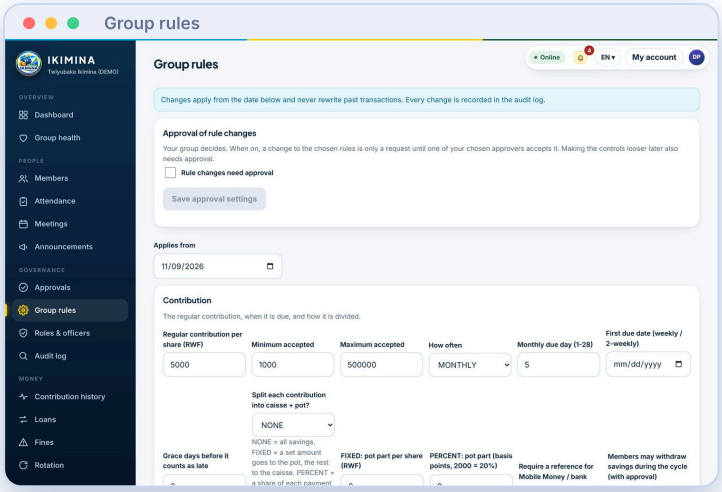

Reports. Statements as PDF and exports to Excel.

- Send a friendly WhatsApp reminder to a member who is behind with one tap.
- Group statements and member statements can be saved as PDF and shared.
- The year-end share-out preview shows what each member would receive. It is a preview, not a payment.

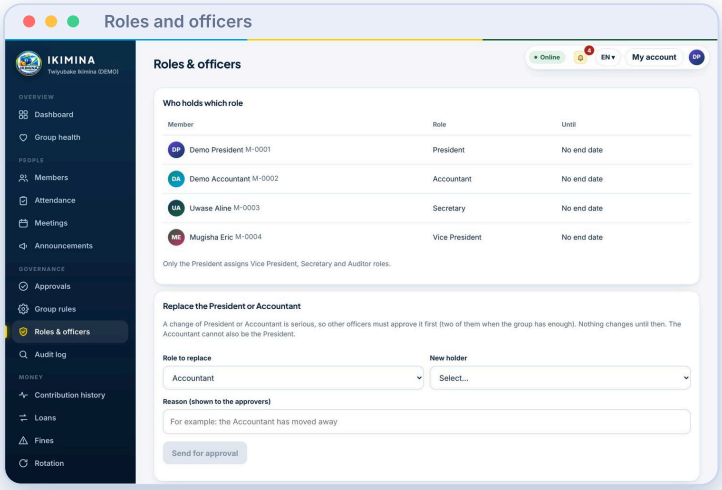

GOVERNANCE

Group rules and roles

Each group decides its own rules and who holds each role. Changes are recorded and never rewrite the past.

Group rules. Contribution, loan, fine and rotation rules.

Roles and officers. Who holds which role, and how to change it.

1

Give a role

The President gives Vice President, Secretary or Auditor roles, or ends them.

2

Temporary permission

Lend a member one extra job until a date you choose, for example recording savings while the Accountant is away.

3

Replace President or Accountant

The President or Vice President sends a request with a reason.

4

Approval

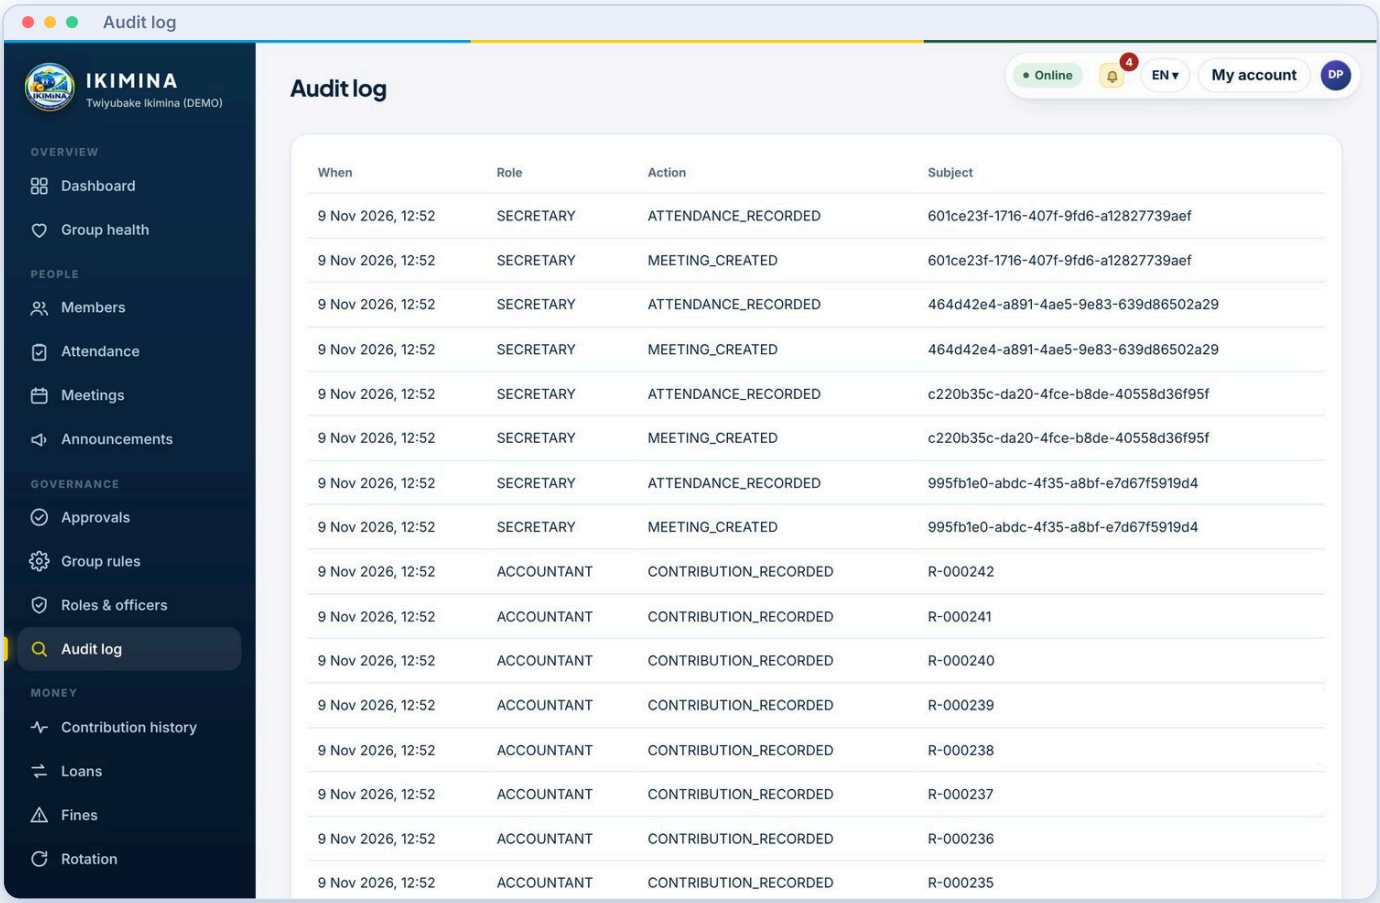

Other officers approve (two when the group has enough). Only then does the change happen.

The Accountant cannot also be the President. If a group is stuck, for example someone lost their phone and nobody can approve, EduSmart support can appoint the role after checking who is asking. This is recorded in your audit log.

TRUST

Audit log and security

Every sign in, payment, approval and change is recorded with who did it and when.

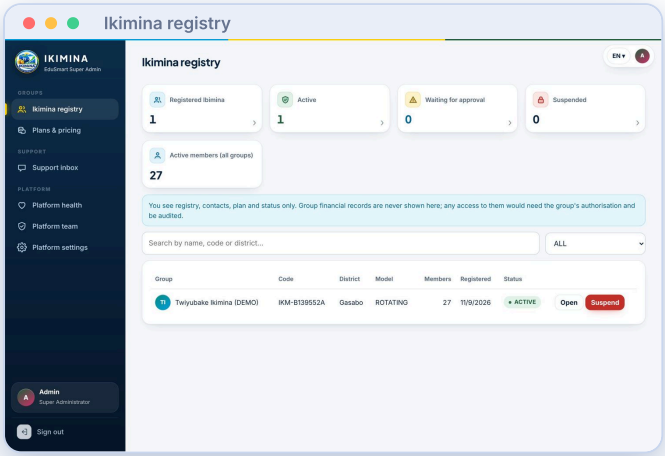

Audit log. A permanent record of what happened and who did it.

- Money records are append-only. Corrections are new entries that an officer approves.
- Each member sees only their own records. Officers see only what their role allows.
- PINs are stored in a protected form, accounts lock after repeated wrong tries, and you can sign out of other devices.
- Dates cannot be in the future, and months and dates come from calendars to avoid typing errors.
- EduSmart support sees the group's name, contacts, plan and status. It does not see the group's money records.

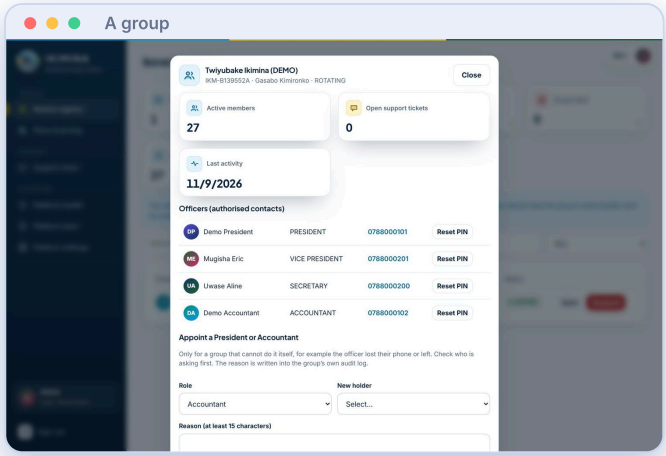

FOR EDUSMART SUPPORT

The platform team

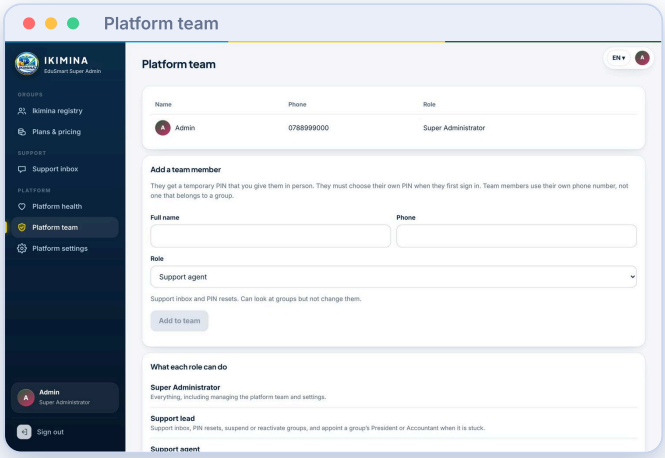

EduSmart Consult staff look after all the groups. Each person has a role that limits what they can do.

Ikimina registry. All groups with their status.

A group. Officers, support actions and subscription.

Platform team. Add team members and set their roles.

Role	Can do
Super Administrator	Everything, including the team and settings.
Support lead	Support inbox, PIN resets, suspend or reactivate groups, appoint a group's President or Accountant.
Support agent	Support inbox and PIN resets. Looks at groups without changing them.
Billing manager	Plans, prices and subscriptions.
Analyst	Read-only view of groups and platform health.

QUESTIONS

Good to know and troubleshooting

Short answers to the questions groups ask most.

Question	Answer
I forgot my PIN.	Ask an officer to reset it. You will receive a temporary PIN and choose a new one at once.
My account is locked.	Too many wrong PINs lock the account for a while. Wait, or ask an officer to reset your PIN.
My payment is missing.	Ask the Accountant. If it was recorded offline it appears once their phone is online.
The Accountant recorded a wrong amount.	Ask for a correction. The Accountant requests a reversal and another officer approves it.
Someone lost their phone.	Reset their PIN. If it is the President or Accountant, replace the role (see Group rules and roles).
The app is slow to open.	On the demo, the first open can take a minute. A group on a paid plan does not wait.
Can I use it without internet?	The Accountant can keep recording and the records upload later. Other pages need a connection.

Need help? Open Help and support inside the app, or contact EduSmart Consult: +250 782 368 555, ahagenimana@edusmartconsult.rw.

READY TO START

Set up your group with EduSmart Consult

Open the demo, look at every screen, then ask us to set up your own group. We create the group, you choose who holds each role.

Try it

Open the web app at ikimina-demo.onrender.com. The demo has sample data only.

On Android

Download the app from www.edusmartconsult.rw/savings-groups.html, open the file and allow installs from your browser.

Talk to us

We set up your group, train your officers and support you.
