

Smart School App

Offline learning and school management for Primary 1 to 6, on Windows and Android.

What it is

An offline learning and school management suite for Primary 1 to Primary 6. Learners get the full curriculum library, practice and past papers. Teachers get lesson plans, timetables, marking and reports. It runs on Windows computers and Android phones with no internet connection.

For learners

- Every class and subject, page by page
- Read aloud, zoom and three text sizes
- Smart Practice on the topics they miss
- P6 national exam papers, 2010 to 2025

For teachers

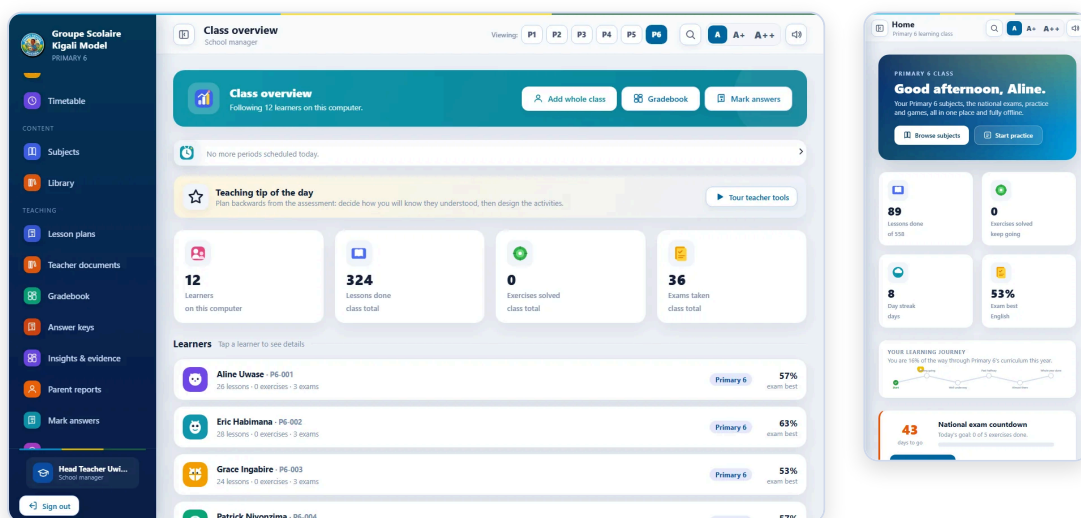

- REB lesson plans filled from the scheme of work
- Conflict free timetables
- Marking with model answers beside the work
- Gradebook, homework and printable reports

For school managers

- Staff profiles with class and subject access
- Insights on learning and teacher use
- Backups and whole school export
- Parent reports with an offline QR code

Works everywhere

- No internet needed to teach
- Windows 10 or 11 and Android 7 or newer
- Same account and content on every device
- English, French and Kinyarwanda lesson plans

Real screens from Smart School App.

Built for real classrooms

Reports and evidence

- Learner and class reports
- Progress by topic and gender
- Impact report for partners

Data stays with the school

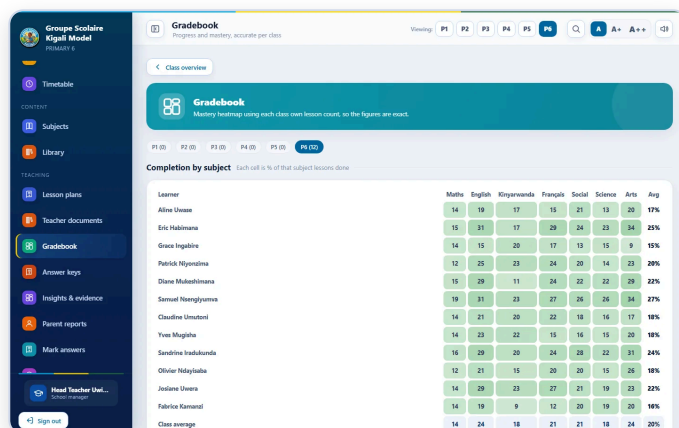

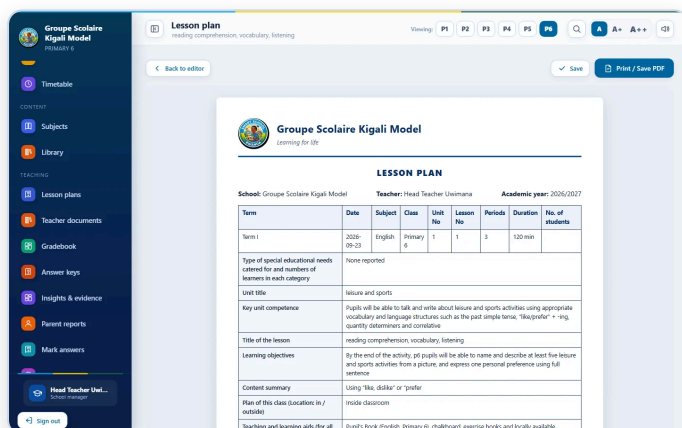

- Records live on school devices
- Sync is optional
- No advertising and no tracking

Accessibility

- Colour themes and larger text
- Keyboard friendly layouts
- Read aloud

Support

- Training and set up help
- Updates and teaching guides
- Support desk for licensed schools

Getting started

1. Request a demo or quote from EduSmart Consult.
2. Install the app on Windows and Android devices.
3. Set up staff profiles and classes.
4. Teach, mark and report, offline or online.

Licensed per school. The app works offline. Books, exams and curriculum content belong to their owners.
